PART OF ITALIAN PROBLEM IS SETTLED—POWERS CONFER ON ADRIATIC SITUATION

(By Associated Press)
Paris, May 17.—Italy has relinquished her claims to the Dodecanese Islands off the Asia Minor coast in favor of Greece. This ends one of the most acute controversies before the peace conference. Premier Orlando, Count Di Ceglie, Italian Ambassador to the United States and Col. E. M. House, of the American peace mission, continued today their conference looking toward a settlement of the Adriatic question. It was stated that the outlook was hopeful but that over optimism should be discouraged. Italy

has been claiming the Dodecanese Islands by virtue of treaty rights acquired after the Italian-Turkish war although the islands are largely Greek in population.
AD PART OF ITALIAN
The question of the future of the Dodecanese Islands involved self determination as the population is Greek. Italy has held the islands since the Tripolitan War but now retires under the terms of the Treaty of Lucerne which provided that the islands should be held until the Italian prisoners in Tripoli had been delivered by the Turks.

U. S. ESTIMATES WERE WRONG SAYS MARCH

(By Associated Press)
Washington, May 17.—Gen. March, chief of staff of the Army, announced today that experience in troops transport during the war had shown that the estimates made by the War Department in 1915 as to the possibility of a foreign nation landing troops in the United States were entirely too high. These estimates, Gen. March said, included 387,000 men in 10 days by Germany, 401,000 by France in the same time, 180,000 by Austria and 238,000 by Japan. These were based on the calculation of a transport making a round trip every 30 days whereas experience proved that 35 days would be required for even the very fastest of transports and 70 days for cargo ships.

WALSH—DAVIS

Berget, W. L. Davis, U. S. M. C., and Miss Irene D. Walsh, formerly of Kittery, were married in Boston, May 14.

(By Associated Press)

Washington, May 17.—The American naval seaplane NC-4 under Lieut. Commander Albert C. Read has attained its first objective in the trans Atlantic flight, having landed safely at Horta, island of Fayal, Azores, at 9.20 o'clock this morning. Washington flag, after winging her way from Trepassy Bay, N. E. in 15 hours and 13 minutes. The NC-1 under Lieut. Commander Patrick N. L. Bellinger was close behind the NC-4 but the NC-3 flagship of Commander John H. Towers, was last reported at 5.15 a. m. Washington time, as off her course somewhere between station ships 17 and 18, about 100 miles from Horta. Original plans were for the planes to land at Ponta del Gada and it may be that the NC-1 and NC-3 will continue to that port which is about 150 miles east of Horta. Fog evidently caused Commander Read to land at Horta and officials here assumed that after taking fuel from the cruiser Columbus, he would continue to Ponta del Gada to spend the night before taking flight for Lisbon, Portugal on the next leg of the overseas flight. Commander Read reached Horta several hours ahead of schedule time for the flight, officials having estimated that 20 hours would be required for the seaplanes to reach Ponta del Gada. Had he continued to that port at the speed maintained throughout the entire voyage, he would have covered his 1200 miles in a little more than 17 hours. The fact that the NC-1 was the first of the three planes to reach the

Azores drew comment from naval officials here. This ship was the "lame duck" of the division from the time it started from Rockaway Beach, L. I. Three of the four "Liberty" motors which drove the ship to the Azores were installed after it left Rockaway Beach because of trouble with the original motors. Commander Read was forced to land at Chatham, Mass., on the first leg of the flight to Newfoundland. He again was forced to make a landing on the way from Halifax to Trepassy to make repairs and at Trepassy another motor was put in the plane before it started over seas. Despite these handicaps, the NC-4 led the way to the Azores practically all night. The machines which will achieve the distinction of being the first to cross the Atlantic Ocean will be that which arrives first at Lisbon, Portugal, the first European landing place of the flight and starting point on the last leg to Plymouth, England.

Washington, May 17.—The naval seaplane NC-4 has arrived at Horta, island of Fayal, Azores. The official dispatch to the Navy Department said "The NC-4 arrived at Horta at 12.30." The time given was apparently confused in some way and could not be translated accurately into Washington time but was taken to mean 8.23 a. m. The NC-4 left Trepassy at 6.07 p. m. yesterday which would make her time 14 hours and 13 minutes for the 1200 mile flight to Horta. The NC-1 passed station ship No. 26, 75 miles from Horta, 30 minutes behind the NC-4. The flagship NC-3 passed station ship No. 13 at 2.35 a. m. Washington time. Nothing further had been heard from the NC-1 and NC-3 when the NC-4 reached Horta.

AUSTRIANS MUST PAY LARGE SUM TO THE ALLIES

(By Associated Press)
Paris, May 17.—The indemnity clause of the Austrian peace treaty provides for a payment of 5,000,000,000 gold marks without bond (about \$1,250,000,000 or 1-20 of the 25 billion dollars Germany is required to pay). It has been requested by the Italians that the Austrian treaty provide the return to Rome of the many priceless art treasures taken by Austria as booty in previous wars.

The exchange of credentials between the Austrian peace delegation and the representatives of the allied and associated powers will take place Monday afternoon at 3.30 o'clock.

ALLIES TAKE TURKISH FORTS

(By Associated Press)
Paris, May 17.—Allied naval forces had taken all forts and strategic points at Smyrna by nightfall Wednesday, according to advices received today from the Near East where military moves are being made in anticipation of the making of peace with Turkey. The movement was directed by the peace conference as a precautionary measure for the maintenance of order.

The Trupee Shoe is the very best answer to this nation-wide demand for better fitting footwear, because it is built upon new principles which INSURE proper fitting shoes.

What distinctly marks Trupee shoes from the others, is the fact they are made in three types on the same style, toe—infant, straight and outflare. Science says "All normal feet are of one of three types and not of one standard type." This fact is now established after years of scientific research and study.

The Trupee Shoe is the right type for your foot, will prove to be one of the most attractive, as well as best fitting shoes you ever had. Come in and try on all THREE types.

Why You Should Buy Coal Now

The price of coal is 75 per cent determined by wages. The wage agreement at the mines continues until April 1, 1920. The Fuel Administration reports that 35 per cent of the mines cannot make any money at the present mine prices. In view of this, how can coal be cheaper this year?

NAVAL NC SEAPLANES OFF ON THEIR FLIGHT TO THE AZORES

(By Associated Press)

Washington, May 16.—The American seaplanes in flight for the Azores in their attempt to make the transatlantic flight, passed the sixth station ship the destroyer Ward 349 miles from Trepassey Bay at 12:05 Greenwich time, or 10:05 Washington time, according to a wireless message to the department from the Azores.

Trepassey, N. F., May 16.—The three giant Naval seaplanes, N-C 1, 3, 4, arose late this afternoon from the waters of the bay and headed east for their third leg of the flight to the Azores in a twenty-century voyage of the Atlantic as dangerous as the voyage of Columbus, made five centuries before.

Commanded by Commander J. H. Towers, Lieut. Commander A. C. Reed and Lieut. Commander P. H. Bellinger, the planes left their moorings at the head of the bay and taxied to the narrow where with a fresh westerly wind they took the air. The N-C 3, at 7:32, the N-C 4 two minutes later, and the N-C 1 at 7:41 Newfoundland time, rose one hour and 30 minutes ahead of New York time.

Within a few minutes they were lost to sight beyond the horizon. As they passed from view the people of Newfoundland who lined the shores, joined with the Yankee sailors here in rousing cheers of good will for their voyage.

The seaplanes shaped their course

for Cora the westernmost island of the Azores and from there will fly to Horta on Sagal, where they will descend if there is any engine trouble, but if conditions are right they will continue on to Ponta del Gada on San Miguel island or 1553 nautical miles from Trepassey. This leg of their cruise in their flight to Plymouth England will be the only one in which they will fly nights.

The planes are expected to make about 60 miles an hour, although they are capable of making 90 miles an hour if necessary. Temperature is expected to govern the heights but they are not expected to go over 6000 feet.

The N-C 4, which was left on the first leg on account of engine trouble, and which arrived at Trepassey yesterday afternoon, was in the air almost as soon as the flagship rising after a twenty-five minutes cruise about the harbor.

The N-C 1 made two unsuccessful attempts to rise, while the N-C 4, was taxing about the harbor and the N-C 3, circling overhead but finally arose nine minutes after the other and followed in their wave to the east.

Washington, May 16.—An official report from Trepassey Bay, this morning indicates that the weather conditions along the route of the seaplanes to the Azores will be favorable. It is estimated the plane flight each day, starting in 19 hours or about one P. M. tomorrow Washington time.

'SALLY' DRIVE OPENS SUNDAY

Boston, May 16.—The Salvation Army campaign to raise \$400,000 in Boston and \$3,000,000 in New England, will be opened Sunday afternoon by a mass meeting at Tremont Temple in honor of Gladys and Irene McIntyre, Salvation Army lassies, who served in France with the 25th division and were cited for bravery under fire.

Gov. Coolidge, Mayor Peters and prominent military and naval officers will speak, and the sisters will relate their experiences and describe the work of the Salvation Army overseas. With elaborate military ceremonies on the Common tomorrow afternoon at 1 o'clock the McIntyre sisters will be formally presented with their citations by Maj. Gen. Edwards. For the first time in New England's history troops will pay honor to two women. The troops participating in the ceremonies will include the 101st infantry band, Brig. Gen. Charles H. Cole, who is in charge of the Salvation Army's one-week campaign, will command the soldiers.

Further plans for the campaign were announced yesterday at headquarters in the National Shawmut Bank building. Starting next Thursday young women will solicit funds on the streets and each day will have an appropriate name. Thursday will be "Y Day," Friday "Elks' Day," Saturday "Doughnut Day," and Monday "Fathers' and Mothers' day."

Noon rallies will be held on the Common every day during the campaign, each rally to be in charge of some organization of the Yankee division. The colonels of the respective regiments will act as chairmen.

Col. Adam Clifford, in charge of Salvation Army activities in New England, yesterday received the following cablegram from President Wilson:

"I am very much interested to know that the Salvation Army is about to enter in a campaign for a sustaining fund. I feel that the Salvation Army needs no commendation from me. The love and gratitude it has elicited from the troops is a sufficient evidence of the work it has done, and I feel that I should not so much commend it as congratulate it."

Volunteer workers continued to enlist yesterday. Arrangements are being made for programs of Salvation Army music at Boston hotels during the campaign.

requirements of the National Budget and, and, it raised, the National organization will receive \$1153.45. If more than that amount is raised, the sum will be applied toward the purchase of the building on State street, where the Army is now located. If this excess is not sufficient to buy the building outright, effort will be made to purchase it from the city of Portsmouth, and give a mortgage for the unpaid balance, whatever that may be. It is earnestly hoped that this drive will exceed the \$10,000 by an amount sufficient to purchase the home outright.

In case this should happen, the first of rent, \$120, will disappear. No charges are made by the city for taxes, but the ordinary repairs will come in the place of rent.

The local funds will be held in the custody of the Elks, and will be expended monthly under the supervision of Brothers Charles F. Shillaber, John K. Bates and William L. Condon, who constitute a special commission for this purpose.

LIFT OFF CORNS!

Drop Frezzone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magical! No humbug!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

CANNOT FIND DIRIGIBLE

(By Associated Press)

Washington, May 16.—The Navy Department made public the following wireless from the commanding officer of the destroyer Edwards which is returning to St. John's after chasing the C-5.

"Dirigible C-5 lost. Unable to learn whether merchant ship which was standing by, has abandoned the airship or is following it. Unable to locate either ship or airship."

Previous dispatches during the afternoon had reported the airship in tow of the Edwards being brought back with small damage, but apparently there was no ground for these dispatches.

WILL HONEYMOON IN NEW ENGLAND

Chicago, May 16.—Francis Burton Harrison, 46, Governor-General of the Philippine Islands, who was married yesterday to Miss Elizabeth Wrenmore, an 18-year-old co-ed at the University of California, Berkeley, Cal., at the Blackstone Hotel in this city, will take his bride to New England for a honeymoon.

Gov. Harrison was married at 5:30 o'clock last evening, five and a half hours after his first wife, Mrs. Mabel Judson Harrison had obtained a divorce at San Diego, Cal. The ceremony was performed by the Rev. Johnston Myers of the Immanuel Baptist Church in Gov. Harrison's suite on the eighth floor of the hotel in the presence of a few friends.

The couple left for Washington to visit Mr. Harrison's mother, Mrs. Constance Cary Harrison, writer and poet. They will proceed from there to New England.

DECIDE TO TEACH ART TO PUBLIC

New York, May 17.—The American Federation of Art has decided to make a "burnstorming" through the cities, towns and waste places of the country to teach at least its fundamentals to the populace.

As his means to accomplish the desired end, the federation decided at its convention here to develop extensively the travelling exhibitions which have been an experimental feature of the organization's activities. Several speakers pointed out the need of a campaign for the artistic enlightenment of communities in general. They declared that not only the West, but all other sections of the country were ready for the art educational campaign, but that the work must not be approached from a "high brow" attitude.

A division of pictorial propaganda under supervision of the United States government was proposed by Gerrit A. Behner, an artist whose work was used in the Liberty Loan campaign.

"This bureau should be headed," he said, "by men who understand psychology, and who have a finger on the throbbing pulse of the people. The bureau should be divided under different heads, all in charge of a man big enough to handle and supervise the work. This bureau could reach in its scope the Mexican people, the Polish, the Negroes and every one else."

Henry W. Kohl, secretary of the Metropolitan Museum of Art, discussed the possibility of introducing art into labor and the general national recognition of the value of art in labor and in the home.

"The greatest field for accomplishment," he said, "lies in the power to awaken the government to a sense of the importance of art and trade as a national asset."

PRES. WILSON'S MESSAGE TO CONGRESS SHORT

(By Associated Press)

Washington, May 16.—President Wilson's message to Congress when it opens on Monday will not exceed 3000 words and it is being sent forward to Washington tonight. The address only domestic affairs, and devotes some part to woman's suffrage.

HUB BREWERS SELLING BEER

Boston, May 17.—The decision of New York brewers to continue manufacturing 2.75 per cent beer, despite the adverse ruling of Atty. Gen. Palmer, has stimulated Massachusetts brewers to take some sort of concerted action.

A meeting of local brewers was called Thursday in the office of the Brewers' Association at 40 Court street, to discuss the situation and formulate an official platform to govern local conditions.

An anxious eye is being kept on the progress of events in New York and the coming decision of the supreme court.

So far there have been no violations of government ruling in this city, all brewing having been suspended.

Rueter & Co., though no longer brewing, are still selling 2.75 per cent beer, of which they had a large stock, and state that they would await the decision of the court in the matter before resuming operations.

TO LIMIT TRADING IN CORN

FEAR FOR AMERICAN OFFICERS IN BERLIN

London, May 17.—American and British officers in Berlin have been ordered to wear civilian clothing outdoors, lest they incite the population to demonstrations, according to a dispatch from the German capital to the Exchange Telegraph Company under date of Thursday.

American couriers in uniform have mostly been forced to remain in the hotel Adlon, and there is a general feeling in the hotel that there will be trouble within the next few days.

254 GRADUATES AT WEST POINT GOING OVERSEAS

Washington, May 17.—The entire 1919 graduating class at West Point will be taken to France in July for a three month close-range, post-graduate course in the war zone. They will be taken to all the American army stations and camps to study our army in the field. They will be taken to the territory around Coblenz. They will also be afforded facilities for studying the armies of the allies.

Active Age Proves Real Quality

Like warriors grown gray in harness, and white-haired employees still on the job, a scuffed and scarred set of Silvertown Cords on an ancient car somehow best tells the story of the matchless service of these patrician tires.

The graceful, well-groomed elegance, with which they when new adorn smart cars, may be shabby; their tough tread worn smooth; but their distinction remains.

Once a Silvertown, always a Silvertown. You know them, old or new, for aristocrats.

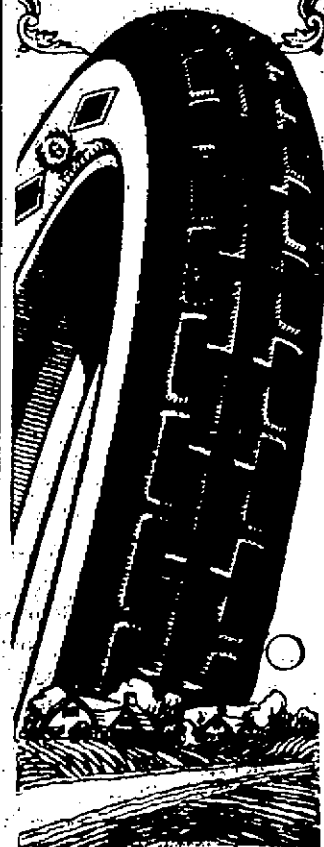

In their age, you read the history of their wonderful endurance; their useful career of miles and miles of road roughing.

You always get the long mileage of a ripe old age to round out the youthful beauty of the tires with the Twin Red Diamonds on the sidewall.

The Coming Memorial Day.

Memorial Day this year will in a certain sense be more significant than ever before because it will commemorate not only the heroes of the Civil and Spanish wars, but also those who laid down their lives in the great world war which came to an end only a few months ago.

It is pleasing to know that in all parts of the country preparations are being made for the observance of the day in a manner commensurate to its importance. In the marching lines will appear Grand Army men, the Sons of Veterans, Spanish War veterans and thousands of men in khaki who have lately returned from overseas. As these lines move to the cemeteries to decorate the graves of the heroic dead a profound impression will be made on the throngs that witness them, for all are aware of what these brave men suffered in the cause of human freedom, the cause that called them to arms, and that all left upon distant fields comrades who fell in the heat of the conflict, and whose names are inscribed on the roll of honor that never fades.

Because of the new element that will be in line this year for the first time there will be exceptional interest in the day and its observances. There will be in the marching lines the remnant of an army that saved the Union from dissolution more than half a century ago; the remnant of an army that crushed the power of Spain in Cuba and the Philippines more than a score of years ago, and a liberal representation of the army that assisted the Allies in dealing a death blow to an autocracy that had run mad and threatened the very existence of civilization. These men marching to the last resting places of the heroes who laid down their lives that freedom might live will present a solemn and impressive spectacle.

And the lesson will not be lost on those who witness the scene and listen to the words that will be spoken. We have been told—and truly—that "Eternal vigilance is the price of liberty," but it is not all of the price. There are times when vigilance has to be followed by action of the sternest sort, and that America has never failed to act when action was demanded is cause for unbounded pride in the heart of every American citizen. From the founding of the republic to the present day this country has desired to live in peace with all mankind, but this desire has not been strong enough to cause it to stand idly by and permit the triumph of wrong without a protest. The history that has been made under these conditions is familiar to our own people and the peoples of the world, and it is a history in which lovers of right and justice throughout the world can take, and do take, genuine satisfaction and pride.

For these reasons the coming Memorial Day will be sacred to every American citizen and will be observed in a spirit befitting the day and all that it commemorates. Let old and young join heartily in the observances in the consciousness that in honoring those who have risked their all in freedom's cause they are honoring themselves and the country which it is their proud privilege to call their own.

Civil service officials from Washington are reported to be in Boston looking into the "suitability" of the various candidates for postmaster. It is to be hoped they will see that the rules of the civil service are "suitably" enforced and that the selection of a postmaster under those rules is not converted into a farce.

It looks as if the Boston carpenters were going to get their \$1 an hour, and yet complaints of high rents will probably continue. It should be realized that landlords cannot pay such wages and the present cost of materials and rent tene-ments at low figures.

The Boston Housekeepers' League is to attempt to bring down the cost of living. It is to be hoped that the effort will succeed, but if memory serves correctly there have been numerous such efforts in the last few years without any very pronounced results.

The Salvation Army drive comes uncomfortably close upon the heels of the Victory Loan, but there is reason to expect that the people will rise to the occasion and "put it over" in the manner that has made American generosity the wonder of the world.

What kind of an institution is Vanderbilt University in Tennessee? A dispatch from Nashville says that two patrol wagon loads of whiskey and other intoxicants were recently seized in its "medical laboratory."

President Wilson's message will be cabled to Congress, and for this reason it will be brief. But there is no doubt that it will be to the point.

The navy yard made a fine showing in the Victory Loan drive. And there are no blemishes on the record of the city.

EDITORIAL COMMENT

Life-Giving Season Soon

(From Shoe and Leather Reporter)
 If you meet a friend with an anxious look on his face he is probably wondering what the world is going to be made safe for next.

Loquacious Colonel House

(From the Columbus Dispatch)
 We shall wait anxiously for the publication of the debates in the Peace Conference to see whether Colonel House ever said anything even when the door was locked.

Some Victory About It

(From the Philadelphia Press)
 That Peace Treaty doesn't read at all like a "peace without victory"; and the House are sadly aware that that isn't what it is, even if the President has a different idea about it.

More Taxes

(From the Worcester Telegram)
 Why bother about mere national, State, county and municipal taxes? Next year we are to be introduced to a new one, international taxes. That is what the League is for. To make America pay a big part of the war cost.

A Flattering Lime Light

(From the New York World)
 In Germany they must have many strange conceptions of President Wilson. When he was neutral he was palavered. When he led the United States to war he was traduced. When he spoke of peace he became again the nation's hero. Now that he has cooperated with the Western Allies in laying down the terms of peace he is once more accused. Possibly some Americans would be inclined to pass severe judgments upon the Germans for these strange aberrations if they did not have before their eyes similar performances on the part of Republicans in the United States Senate.

The Day of the Penny

(From the Detroit Free Press)
 The pennies used to be an abomination. In some parts of the country they were taboo and change was made on the basis of the "nearest nickel." Elsewhere the penny was the smallest fraction recognized. But it is all different now. The penny has come into its own. It is now a necessity where before it was counted a nuisance. The new tax law did it. It made the cent potent. It is convenient to carry several coppers along with the rest of your change. Things now cost six cents where they used to be five, eleven where they were ten; the penny is quite the basis of coin of the land. An accumulation of pennies used to be hard to get rid of, but now they are popular. They are in such demand that the Denver and Philadelphia mints are working overtime almost exclusively, minting one-cent pieces. Merely it's the day of the penny and it can be figured pretty closely that the purchaser's contribution to the Government is the difference between his outlay and the next smaller "nearest nickel."

The Outlook in 1920

(From the Lawton Journal, Rep.)
 The Republican party can probably elect any candidate it may nominate for President in 1920. For that reason it should be sane and safe. We have had a plenty of expansion; we want economy. State and nation are to lose enormous revenues from the adoption of prohibition. Interest accounts are enormously increased. There is only one way to meet declining revenue and that is by reducing expense.

The extravagance of the Democratic Administration, when exposed, will be sufficient to cause its defeat. Its mal-administration of public utilities, its inefficiencies in the post office and railway service; its conduct of the financial end of the war, will be a page of deep concern when read by the taxpayer.

From now on the issues are to be economic and sociological. Bolshevism will fall of its own weakness. No theory that fails to take in the personal initiative, the brains, the foresight of the individual can succeed. This is a world of individualism. Attempts to put over a deodorized form of Bolshevism are likely to be made. None will succeed that fails to take into account the Divine Law—that progress comes by a combination of the dreamers and the doers. Wealth is nothing. Progress is the thing and that cannot come by a dead level of comfort, handed out on a silver platter. We must work. But we want when we work is justice to every worker, in the degree of his value and his performance, not in the degree of his power to enforce a price.

Some Hope For the Rent Payer
 (From "Times of the Times" in New York Times)

In asserting that it is lack of buildings, not high rents from which the people of this city are suffering, the Reconstruction Commission is right in a way of course, but it is a way that will not be of obvious accuracy to those who have to deal on every rent day with the effect of insubstantial housing rather than with the insubstantial housing that is the cause of the effect. It is quite true, however, that the removal of the effect can be brought about only by the removal of the cause, and if the rent-payers would, or could, take a long and philosophical view of the situation, they

would see that its one sure cure lies in the high rents about which they are complaining so bitterly.

For nothing is more likely to bring about a resumption of building than those same high rents, and, in the ordinary sequence of events, there will be sooner or later, overbuilding. Then the tenants will have their revenge and the landlords will be on their knees again, offering all sorts of inducements to tenants, instead of assuming, as now, the haughty attitude natural to dealers in wares for which there is eager, competitive bidding by would-be purchasers.

To get consolidation out of this prospect is difficult, however, its joys being deferred for a year at the very least, and meanwhile there are the high rents to pay. Various means of avoiding this immediate yoke are suggested, and, curiously enough, the least hopeful of them all—that of preventing by law the landlords from charging what they can get—is just the one that receives the most of popular approval.

Back to Peace Basis

(From the New York World)
 The ships bringing American soldiers home, the floating of the last Liberty Loan, etc., are physical signs that the war is over. But there are psychological signs as sure. An example of the simultaneous outbreak of dances against dancing, women's clothes and the stage.

One minister pays his respects to the "moral leprosy" of the drama and the "moral scavengers and filth-producers" responsible for it. Another takes as his target a recent public ball under charitable and religious auspices, denouncing it as "paganism" and warning New York that it will have to pay the price for its folly and sin; for "the mephitism of the Lord's Day half-dressed women, the pagan whirling and dicing." And at Atlantic City a woman physician addressing the State Federation of Women's Clubs deplored the vogue of indecent gowns, immodest tight skirts, immoral new dances and "unmentionable bathing-suits."

It is not this complete return to the peace basis of social censorship? Morals, like laws, may be silent in war, but here we are back to the old status of things where every prospect pleases and only woman is vile. Ministerial and other reformers may be congratulated on the celerity with which they have demobilized from war work and resumed the activities of moral regulation. The campaigning promises to be lively, from the vigorous beginning made. And it cannot be gainsaid that there is need of it. But what has come of similar moral thundering in the past to make the public confident of its purifying effect?

PEOPLE'S OPINIONS

The Clerks' and Merchants' Half Holiday.

Editor:—You will observe that I mention the merchants also, because they enjoy the closing Wednesday at noon just the same as the clerks. I want to say that the idea of closing from May to October is perfectly legitimate and after a few weeks everybody will get accustomed to it. There would be no special benefit in closing from October to May, which may be a good argument or not. In the first place, half holidays at that time are out of the question; the beach resorts are closed and there would be practically no place for anybody to go for relaxation and amusement, and half holidays during the winter months would not be favored by the clerks generally. Therefore the summer season is the proper time for clerks and others to enjoy a half holiday.

Portsmouth is not the only city in New England catering to a good summer trade. A great many of our summer visitors, perhaps all, come from cities where the stores close some half day during the week. Well, if they can stand it in their own cities, they probably can here. I want to state here that there will be no business lost. Every merchant will be ahead of the game at the end of the season. It is just a question of Portsmouth being up to date, and it is slowly getting there. I take off my hat to our Hebrew merchants who have joined this movement to close their stores with the rest, and I believe that the few stores that did not close will do so later on, they invariably do. Publicity helps.

77TH DIVISION BEST OVERSEAS COMBAT TROOPS

(By Associated Press)
 Washington, May 17.—Official reports of the War Department show that the 77th Division made a larger advance against the enemy than any other American division in France. The New York City national army men went forward a total of 71 1-2 kilometers. The second (Regular) Division advanced a total of 69 kilometers and the 42nd (Rainbow) Division 65 kilometers.

NAVY YARD NOTES

Will Pick From 20

The candidates for the yard civilian ball team will now be picked from 29 men, forty of the game having been eliminated.

The following are those now available for the team: Pitchers, Scruton, Fisher, Wear, Hinson, Catchers, Fontaine, Connors, Hinesworth, First base M. W. Hayes, Shortstop, Broderick. Second base, Vaughan, Dunin, Third base, Jewell, M. L. Hayes, Centerfield, Irvine, Left field, Cannon, Right field, Cole, Doll, Houle, Masten. The team when picked will play semi professional teams on Saturdays on a guarantee of 60-10 and will likely meet the civilian team of the Boston yard as one of its opponents.

Yeomaness for Subs? Never.

"Submarine yeomaness? Never," declared Mrs. John T. Pratt. She rounded the warning to her sex. No boudoirs, no room to oven bang, a handbag. Mrs. Pratt took a short trip in New York harbor on the German UG-57. At first she seemed to like the undersea craft and insisted that she be allowed to descend below. Now she is satisfied that the yeomaness for subs will never come. She would do most any kind of duty ashore but "not" on Uncle Sam's seafighters that move above and below the surface.

Stole 1000 Bags of Sugar.

The naval authorities have made arrests following the discovery of the stealing of 1000 bags of sugar valued between \$70,000 and \$80,000 from a naval base in Brooklyn. Three men are charged with the larceny of the sugar which was moved in a motor truck. Louis A. Markowitch a checker at the supply base is also under arrest.

Some Stiff Challenge

Manager C. E. MacLaughlin of the Charlestown navy yard baseball team is out with a challenge to the strongest teams in New England. The team will open the season with a game at Mablehead with the nine from that town on May 30.

Southerly Beats Dakota.

The ball team from the U. S. S. Southerly and the U. S. S. South Dakota played a seven-inning game on the yard diamond on Friday which ended in a victory for the receiving ship by a score of 7 to 1. The Southerly team played all around the cruiser boys and with Azbells in the box had the opposing team at his mercy at all times. Every man on the Southerly team came across with a hit and Azbelle got five of them fanning the air. The Dakota claims it was not the regular nine but a scrub outfit. The Southerly men smile at the attack.

Coming Tuesday.

The official board of inspection and survey to look over the Don Juan de Austria will arrive at the yard from Washington on Tuesday.

Week-End at Home.

Dr. T. C. Quirk of the yard medical corps is passing the week-end at his home in Watertown, Mass.

He Will Put it Over.

Lieut. S. Pothie, assistant to the shop superintendent of the Industrial Department, will be the yard agent in charge of the Salvation Army drive beginning on Monday. The several committees of the yard who acted on the previous drives for Liberty loan, Red Cross, etc., will work under his supervision. There is no doubt about him putting it over.

Need Ten More.

Five laborers were called in the Industrial department today. Ten more are needed by the same department.

Elect Officers.

The Portsmouth Navy Yard Mutual Aid Association organized in this city on Friday evening with the following officers: President, A. L. Cate; vice president, H. M. Chandler; secretary, M. O. Richards; treasurer, N. A. Schauschleff.

WHY HE FAVORS LEONARD

Editor:—Various reasons have been advanced to account for the growing belief that Leonard Wood would make a good President; yet all have been of a "secondary" nature—"derivatives." Qualities have been ascribed and performances dwelt upon according as they have appeared to the particular writer, yet no one has specified the primary attributes which underlie—loyalty and an endless patience. Every

act or course which has won approval has been palpably the offspring of these qualities. Loyalty to duty, to country, to associates and patience to comprehend, and hereby produce good result. That which alone makes efficiency, in soldier, executive, or servant of the people in any capacity is this trait of loyalty; but to accomplish it must be backed up by patience. We instinctively recognize underlying traits and approve men upon them. Is not this then the reason why General Wood is looked on with confidence and respect? He may, or may not be nominated in 1920. Whether he be, or be not, no one will doubt that he will continue to be that which he has been. As we know a feeling of certainty as to the general relations of life and business arises when there is knowledge that a chief executive is possessed of the qualities of loyalty and patience. If, therefore, it come to pass that General Wood be nominated, we may assume that a justifiable feeling of certainty and security will spread abroad.

RAILROAD NOTES

The local wrecking train of the R. & M. was called to Kittery today where the tender of a locomotive was on the ground.

Owing to the regular pay day of the R. & M. employees here falling on Decoration Day the men will be paid the day previous.

Donald Coffin, a workman at the R. & M. roundhouse in Concord, fell from a locomotive there and is at the hospital suffering from concussion of the brain.

The new automatic signals at Portsmouth and Kittery crossing, east of Kittery Junction, are now in working order.

The special train with the Knights of Birmingham from York Beach and this city carried 200 or more to Rochester on Friday evening. Conductor Wallis Chase was in charge of the train which arrived back about 2.30 this morning.

WILL RELATE WAR TIME EXPERIENCES

The Elks are to hold a mass meeting at the Colonial theatre on Sunday afternoon, to open the Salvation Army drive, which they have taken charge of and which will be held during the week of May 19.

Mayor Albert Hildrop will preside and Governor John H. Bartlett will be present. The other speakers will include Adj. Stubbard of the Salvation Army, who was overseas and will relate to his experiences in the front line.

Lieut. Moneyponny, U. S. M. C., who was wounded at Chateau Thierry in that famous stand of the Marines, will speak and Sgt. Jeremy Waldron of this city who was with the railroad engineers and afterwards with the infantry will tell of his experiences. The Colonial orchestra will furnish

music and there will be special singing and possible other speakers.

This meeting is not for the purpose of taking up a collection or making any solicitations and there will be no admission charge. It is simply to acquaint the people with some of the things that the Salvation did in France for the soldiers, as told by men who were there.

The drive itself begins on Monday morning and the Elks have a fine organization to carry on the work. The city has been divided into districts and everybody in the city will be given an opportunity to show what they will do for this very good cause, a cause which is endorsed by all classes and all believers.

FROM THE FIRST DOSE

Hood's Sarsaparilla Begins Its Reconstructive Work.

First, it creates an appetite. Second, it aids digestion. Third, it perfects assimilation. Fourth, it carries 100 per cent. of the nutriment in the food you eat into the blood and the body, thereby enriching and vitalizing your blood which in time renews your strength and builds up again your reserve strength and vitality.

This makes Hood's Sarsaparilla one of the great remedies of the world. From the first dose you get on a definite road to improvement. It is of inestimable value just now to restore the health and nerve force so greatly exhausted by war excitement, the grip and influenza epidemics and the changing seasons. It is the right medicine for you this Spring. Get a bottle today.

And if you need a mild, effective cathartic, get Hood's Pills.

NEITHER TEAM SCORED A RUN IN FAST GAME

In a clean fast game at the Playgrounds last evening the champion Cloddard Seminary team of Barre, Vt., played the Alt-Stars a scoreless tie. The cold weather interfered with the attendance so that the game was not a financial success but those who attended saw a good fast game.

The same teams will play again at the same place and time, Monday night, May 19. This is a benefit game to enable the Vermont team to meet its expenses on their trip through Massachusetts and Maine. The score:

FINE CONCERT

Noted Musicians Give Program at High School Hall.

The high class musicale given by Lieut. Comdr. Thomas Mott Osborne, U. S. N., pianist, and Peter Kurtz, violinist, at High School Assembly hall, brought out a large audience, who had the pleasure of hearing a rare musical treat.

The concert was given for the piano fund of the Farragut school and there was much enthusiasm shown in the project by the pupils, their parents and the friends of the school. Mrs. Samuel Cohen, president of the Parent-Teacher Association of the school, started the matter at a recent meeting of the Association in the school building and one hundred dollars was raised at that time for this object. Mrs. Cohen has been an enthusiastic worker in aiding to raise funds and deserves much success for her efforts.

The choice program was listened to with deep appreciation as the talent of the artists well merited and every number was received with prolonged applause. Mrs. Kurtz assisted in the program as vocalist, and gave it added interest. She was presented with a choice bouquet of flowers by the Parent-Teacher Association of the school. Frank de Rochemont making the speech in behalf of the school.

The program given was as follows: Part 1.

Gondoliers, "Fantasia"..... Sullivan
(a) Bratton..... Greg
(b) To the Spring..... Greg
Piero de Langa..... Roloff

Scene de Ballet..... Da Dertol

Romance..... Svendsen
Elgie..... Massenet
(a) Chant sans Paroles..... Tschakowsky
(b) Madrigal..... Shostakovich

Waltz, "Life Let Us Cherish"..... Strauss
The stage was adorned with the American flag and tall potted palms, the latter being kindly loaned for the occasion by the Borsis, Richard E. Humphreys.

The proceeds from the concert will enable the Parent-Teacher Association

The case has been on trial before Judge Hale since Wednesday and Adario seeks to recover \$5000 for injuries at the North End coal pocket. The verdict will not be known till Tuesday next.

FIND BABY'S BODY ON THE BEACH AT SALISBURY

Boy's Jacket With Life Belt
Also Washes Ashore.

Another body from the Barge Nantuxet lost off the Isle of Shoals on Thursday morning was washed ashore late on Friday afternoon at Salisbury Beach and later picked up by the Coast Guard. This body is that of the infant 6 months old. The child was drowned.

Shortly after the finding of the baby the guard found one of the boys' jackets with a life belt attached to it.

This indicates that the mother and children were not drowned as soon as reported and the boy or the mother had time to find the life belt which was no help to the boy. It is now said that the mother's body was partly clothed over her night dress.

More wreckage is still drifting onto Salisbury beach but nothing of any value to Captain Gray or the ship owners has yet been found.

The baby's body was turned over to Undertaker R. J. McKinney at Newburyport and will be shipped with that of the mother to Staten Island, N. Y.

SERVICE MEN ASKED TO REGISTER AT CITY HALL

A municipal registration booth for Portsmouth service men has been opened at the mayor's office in city hall. Portsmouth desires a complete roster of all returned men and asks returning soldiers, sailors, marines and other discharged service men to call at city hall and register.

The information bureau at city hall will co-operate with the war camp community service. The office at city hall will be open every Wednesday and Saturday from 2 to 5 p. m. and Wednesday evening from 7 to 9 p. m.

All discharged service men who register will be given a pin by the war camp community service to show the men they are not forgotten. As this pin will be a pass to the gatherings of this organization. The pin is round in shape and of silver and enamel. In its center is a blue service star on a white background. On the red border of the pin are the words, "War Camp Community Service."

It is hoped every local man who has served in the war and been discharged will register at city hall.

The war camp community service is on Monday to place six large weather proof posters in conspicuous places about town, asking discharged service men to register at city hall.

WELCOME HOME

Patriotic Service in Honor of
Returned Men.

Arrangements are progressing for the second welcome home exercises and formalization of the municipal service flag which will take place on May 30 at 8 p. m. at the Portsmouth Theatre.

The program is being well planned by the War Camp Community Service and it is expected there will be a large number of service men on the stage, all having been discharged since Feb. 23 and asked to be present and take part in the service.

The patriotic address on this occasion will be given by President Ralph D. Hazel of New Hampshire College, Sergeant Jeremy L. Waldron, who served overseas with the 127th Infantry, 32d Division, will also speak, representing the local men who served, his subject being, "Stalwarts on the war."

The girls' division of the War Camp Community Service will have a part in the exercises and pin the bars on the municipal flag. The Boy Scouts will act as ushers, under the charge of Frank H. Randall.

There will be community singing led by a song leader who will come for that purpose. Letters of invitation are being sent out to returning men as far as their names can be ascertained and letters to the local pastors and those in this vicinity inviting them to attend this welcome home service.

BREAKS LEG IN FALL FROM TREE

Thomas Gamester, young son of Mr. and Mrs. Thomas Gamester of Melbourne street, fell from a tree while engaged in play with other boys and sustained a fracture of the right leg.

EXERCISES BY THE SCHOOLS.

The Memorial exercises by the school children, which are such a pretty part of Memorial Day exercises each year, will probably be given on the afternoon before Memorial Day. The change of time is thought to be a good idea by Sept. William Clayton of the public schools, owing to the fact that a larger number of children would march in the afternoon than in the early forenoon of Decoration Day.

LITTLE GIRL LOSES WAY WHEN SENT ON ERRAND.

Sent to a store for a loaf of bread, a little seven year old girl forgot her way home this morning and she stood on New street with sobbing shaking her body.

She had no idea of the name of the street or her own name, so when Officer Gray came along he had a pos-

sible to effect a reunion with the child and her misplaced home.

After questioning the lost miss, the officer was in despair, but a woman that knew the child happened to come along and told the policeman where the child was stopping on Penhallow street. The parents of the little crusader live on McDonough street, but she has been visiting friends on Penhallow street for a few days and was not familiar with the new neighborhood.

ODD LADIES' CIRCLE

Entertained at Home of Mrs. Harry Chick.

A pleasant gathering was held at the home of Mrs. Harry Chick on Lawrence street Friday afternoon and evening when the Odd Ladies' Circle was entertained. In the afternoon a business session was held and plans were made to hold a food sale on Saturday, May 24.

Supper was served at six o'clock and the party was augmented by a number of the husbands of the members. The inviting menu included cold ham, baked beans, potato salad, hot rolls, pickles, fancy pies, assorted cake and coffee. The evening was devoted to sociability and the hostess was untiring in extending hospitality to her guests and all much appreciated her efforts.

CLASSY ORCHESTRA

Thousands of people from all over New England can testify to the quality of the Strachan (pronounced Strands) orchestra which is booked for Freeman's hall next Tuesday evening. For years Strachan has been considered the leading orchestra in New England and the management was mighty lucky to get this team as it is only on rare occasions that Mr. Strachan would look outside of Boston and Beverly Beach. An instrumental concert for music lovers will commence at 8 o'clock to be followed by dancing. Mr. Strachan will use his regular 10 piece orchestra.

PLEASANT EVENT

Invitation Party at Freeman's
Hall.

The invitation dancing party given last evening in Freeman's Hall by Mrs. William Bragdon proved a decidedly enjoyable affair and 100 or more young people were in attendance. The dancing class of High School pupils taught by Mrs. Bragdon, completed its term some weeks ago and the party last evening was complimentary to that class, while there were also a good number of invited guests present.

Dancing was from eight to twelve o'clock, music being furnished by Gorden's orchestra. The patronesses were Mrs. Charles W. Gray, Mrs. John C. Sweetser, Mrs. Albert Shaw and Mrs. Harry Philbrook.

The light party gowns of the young people were especially pretty and the blue and the khaki were also colors conspicuous on the floor, as a number of army and navy officers and enlisted men were present.

The party was a success in every way and Mrs. Bragdon received many compliments for her efforts in arranging the affair.

ENGINE OFF TRACK NEAR THE NAVY. YARD STATION

Locomotive No. 1161 on one of the second workmen trains to the navy yard this morning went off the rail near the navy yard station when returning to Portsmouth this morning. The first train and two locomotives were blocked in on the navy yard track until the locomotive was put back on the iron by the Portsmouth wrecking crew.

ATTENTION MUSIC LOVERS
